

## Firebox T185

Available with built-in SFP+ interface, 2.5Gb ports, 4GB RAM, and up to 1.83 Gbps UTM for high-demand sites. Plus, faster BOVPN performance.

## **Enterprise-Grade Security for Branch Offices and Retail Environments**

The Firebox T185 is the most powerful tabletop firewall in the Firebox T Series, designed to handle heavier traffic loads in demanding environments. It features SFP+ fiber, providing flexible, high-performance connectivity tailored to your network needs. Plus, it includes a highly reliable built-in power supply and a Kensington Lock to ensure the device's physical security..

"We use WatchGuard firewalls at multiple locations. These models vary from small to large but we use the full security suite at all sites. These firewalls are easy to configure but offer exception value in the security elements that the full suite adds.

This all comes at a cost point much lower than the competition."

~Verified User

Shipping Dimension		17.0"x 12.	0"x 5.3" (435 x 306 x 135 mm)	
Product Weight		5.33 lbs (2	2.43 kg)	
Shipping Weight		7.26 lbs (3	3.30 kg)	
Power Consumption		25 Watts (	no PoE) 90 Watts (PoE)	
Power		100-240 V	AC Autosensing	
Environment	Operating		Storage	
Temperature	32° F to 104 0° C to 40° 0		-40° F to 158° F -40° C to 70° C	
Relative Humidity	10% to 85% non-conden		10% to 85% non-condensing	
Altitude	0 to 9,843 ft (3,000 m at		0 to 15,000 ft at 95° F (4,570 m at 35° C)	
MTBF	172,411 hou	urs	·	

## **Strong Security at Every Layer**

Uniquely architected to be the industry's smartest, fastest, and most effective network security products, WatchGuard solutions deliver in-depth defenses again advanced malware, ransomware, botnets, trojans, viruses, drive-by downloads, data loss, phishing, and much more.

1 Throughput rates are determined using multiple flows through multiple ports and will vary depending on the environment and configuration. Max firewall throughput tested via direct connection using 1518-byte UDP frames based on RFC 2544 methodology. All testing performed on Fireware version 2015.

2 UTM throughput is measured using HTTP traffic with AV, IPS, and Application Control enabled, and does not account for all security services available on the appliance.

Contact your WatchGuard reseller or call WatchGuard directly (1.800.734.9905) for help determining the right model for your network. Visit www.watchguard.com/sizing to access the online Product Sizing Tool.

For details, talk to your authorized WatchGuard reseller or visit www.watchguard.com.
